

Disclaimer for CAT 2025 Mock Test Link:

The Mock Test contains selected questions from previous years' Common Admission Test (CAT) papers, with the aim of familiarizing candidates with the different types of questions generally asked in CAT (MCQs/Non-MCQs) and the exam interface. The Mock Test has a total duration of 120 minutes for non-PwBD candidates, with 40 minutes allocated for each of the three sections, based on last year's pattern. The purpose of this Mock Test is not to reveal the exam pattern for CAT 2026. The number, type, pattern of questions, as well as the sequence and timing of sections in the Mock Exam, are only indicative and may vary from year to year as decided by the CAT authorities. Please note that CAT 2026 will also have a total duration of 120 minutes for non-PwBD candidates, with 40 minutes for each section. PwBD candidates will receive an additional 40 minutes of extra time.

For the Mock Link, the **Submit** button has been enabled for each section. This is to help a candidate proceed to the next section even before the allotted 40 minutes have elapsed. In the actual exam, a candidate can go to the next section ONLY after 40 minutes.
